

Hymn Chan

 <https://hymnchan98.github.io> |  hymn.chan@hotmail.com

Employment

2026 - G.C. Evans Instructor
Mentor: Brandon Levin
Rice University

Education

2021 - 2026 PhD
Supervisor: Florian Herzig
University of Toronto

2019 - 2020 Master of Advanced Study in Pure Mathematics
Merit
Wolfson College, University of Cambridge

2016 - 2019 Bachelor of Science (Pure Mathematics)
First Class Honour
Imperial College London

Course Instructor

Summer 2025	Calculus 2	(MAT136)
Winter 2026	Linear Algebra 1	(MAT223)

Teaching Assistant

Winter 2025	Algebra 2	(MAT247)
Fall 2024	Groups and symmetries	(MAT301)
Spring 2024	Calculus 1	(MAT135)
Winter 2024	Algebra 2	(MAT247)
Winter 2024	Algebraic Number Theory	(MAT415)
Spring-Summer 2023	Multivariable Calculus	(MAT235)
Fall 2022 - Winter 2023	Analysis 1	(MAT157)
Fall 2021 - Winter 2022	Calculus with Proof	(MAT137)

Unpublished work

Breuil's Lattices Conjecture for GL₂ (68 pages)
(preprint available: <https://arxiv.org/abs/2512.00178>)

Construction of Supersingular Representation (with M. Ortiz, Y.S. Zhang, in preparation)

One Calculation in Gromov–Witten Theory (Master's essay, unpublished)

Prizes and Honours:

2022 - 2025	Ontario Graduate Scholarship
2022 - 2023/ 2024 - 2025	Paul Mandl Graduate Scholarship in Mathematics
2021-2022	Blyth Fellowship

Talks presented

June 2026	On Breuil's Lattice Conjecture <i>Alpbach Workshop</i>
April 2026	The p-adic Langlands Program and Breuil's Lattice Conjecture Number theory seminar at <i>Johns Hopkins University</i>
March 2026	The p-adic Langlands Program and Breuil's Lattice Conjecture <i>AMS Spring Eastern Sectional Meeting</i>
February 2026	The p-adic Langlands Program and Breuil's Lattice Conjecture Automorphic forms and representation theory seminar at <i>Purdue University</i>
December 2025	The p-adic Langlands Program and Breuil's Lattice Conjecture <i>CMS Winter Meeting</i>
November 2025	The p-adic Langlands Program and Breuil's Lattice Conjecture Number theory Seminar at the <i>University of Toronto</i>
September 2025	Introduction to the (p-adic) Langlands Program Junior Number Theory seminar at the <i>University of Toronto</i>
March 2025	Weight part of Serre's Conjecture and Breuil-Mézard Conjecture Junior Number Theory seminar at the <i>University of Toronto</i>
August 2024	Introduction to the Langlands Program Department seminar at <i>Nazarbayev University</i>
July 2025	Breuil's Lattice Conjecture <i>Summer school on Galois representations and Reciprocity at Vietnam Institute for Advanced Studies in Mathematics</i>
March 2024	Introduction to the Langlands Program Bird's eye conference at the <i>University of Toronto</i>
December 2023	The p-adic Langlands program and Breuil's lattice conjecture <i>Monodromy and its application conference at Princeton University</i>
October 2023	The p-adic Langlands correspondence and Breuil's lattice Conjecture Junior Number Theory seminar at the <i>University of Toronto</i>
March 2023	Introduction to the Langlands Program Bird's eye conference at the <i>University of Toronto</i>
January 2023	Galois theory of local fields Junior Number Theory seminar at the <i>University of Toronto</i>
November 2022	Fermat's Last Theorem and the modularity theorem Junior Number Theory seminar at the <i>University of Toronto</i>
March 2022	Gromov-Witten invariants: from physics to algebraic geometry to combinatorics Graduate student seminar at <i>University of Toronto</i>

Reading Seminar Organized

Summer 2024	Étale Cohomology
Summer 2024	Modular forms

Experience

Summer 2019	Visiting Student	<i>Chinese University of Hong Kong</i>
Summer 2018	Research Intern	<i>Fields Institute</i>
2018-2019	Peer Tutor	<i>Imperial College London</i>
Summer 2017	Research Intern	<i>Imperial College London</i>
Summer 2017	Fields Undergraduate Summer Research Program	<i>Fields Institute</i>
